Bangly

Multipurpose Cream

A wound is any disruption of or damage to living tissue, such as skin, mucous membranes, or organs. Wounds can either be the sudden result of direct trauma (mechanical, thermal, chemical), or can develop slowly over time. Wounds can be broadly classified as either Acute or Chronic based on time from initial injury and progression through normal stages of wound healing. Bangly cream helps to relieve symptoms and recover normal skin after cuts, rashes, minor skin wound & infections, chapped skin.
