Say Good Bye  
to Pain & Stiffness

# Jointjod

syrup & oil

Arthritis is the most common joint disorder in the world. Arthritis has a huge impact on the quality of life of an individual. It causes pain, stiffness, and decreased range of motion in the affected joint. It may affect one or more joints in the body. The arthritic symptoms limit a person from doing daily activities such as walking, climbing stairs, brushing, writing etc. In most of the cases, arthritis gets worse with time.
